

Medicago falcata

USSR

258750

Shows promise as a source of potato leafhopper resistance.

---R. L. Davis, Ind., 1965 Progress Report to NC-7.

908273

1966 Shows resistance to alfalfa weevil in initial tests. See summary card.

---North Carolina report - 1966 S-9 Technical Committee minutes.

908274

Damage by alfalfa weevil significantly less than check cultivars at 3 of 3 locations.

---Busbice, T. H., D. K. Barnes, C. H. Hanson, R.R. Hill Jr., W. V. Campbell, C. C. Blickenstaff, and R. C. Newton, 1967. Field Evaluations of alfalfa introductions for resistance to the alfalfa weevil, Hypera postica (Gyllenhal). U. S. Dept. Agr. ARS 34-94.

908275

1968 May be resistant to Leptosphaerulina leafspot. See summary card.

---M. Faust, St. Hyacinthe, Quebec, 1978. Report sent 2-15-78.

908276

1975 Used in experimental synthetics W70-22, W71-42 and W72-48. See summary card.

---Notice of Release of Alfalfa Germplasm W70-22, W71-42, W71-47, and W72-48 Originating from Cultivated and Wild Hybrids. Wisconsin AES, 12/20/74.
